

## PREFACE TO THE NINTH EDITION

I have great pleasure in presenting the **Ninth Edition** of "**JK CRIMINAL MAJOR ACTS**". The first Edition was published in year 2006 and thereafter it was revised seven times from time to time in order to bring the same up to date. Keeping in view the positive response from the August Readers and the suggestions received from some of them, the present (Revised) 9th Edition as updated upto December, 2018 along with Governor's Acts of 2018, has been published after due deliberations on the subject.

Efforts have been made to bring this book on a required standard on the subject with lucid exposition of legal principles as laid down by the various High Courts and the Hon'ble Supreme Court of India with comprehensive and exhaustive comments on all the topics with reference to the relevant rules and the latest case law on the subject. Synopsis have been made for each and every case and given alphabetically in contents easy to locate desired subject.

This book has been divided into three parts, classifying all the three Major Acts appended with **Special Free Word Search to save the precious time of concerned readers**. The main purpose of this book is to apprise our readers about the latest legal position/trend on criminal laws & the enactments, rules, regulations framed and amendments made by the legislature in this regard from time to time.

Hope, this revised 9th Edition will be liked and appreciated by the readers as well as by those dealing with Criminal laws.

Comments/Suggestions are most welcome.
